Rate: \$75 for a month, \$40 for two weeks

Maintenance Guidelines:

1. The Sitar should be transported or carried carefully to avoid collisions.
2. The Sitar should always be covered when not in use.
3. The sitar is an extremely fragile instrument. It needs to be protected from anything that may cause damage.
4. Exposure to major changes in temperature and humidity, as well as direct exposure to sunlight, are likely to cause damage.
5. Beginners should not try to tune the instrument unsupervised by the instructor.
6. The Sitar should be used and stored in a clean place, clear of dust, pet hair, spills etc.

For more information about maintaining the Sitar, as well as the cultural practices associated with playing them, please contact the instructor or Chhandayan.
